

Ingenovis Health Shows Rapid Growth in First Two Years

A leading healthcare workforce organization achieves unprecedented milestones as it celebrates its second anniversary.

GREENWOOD VILLAGE, Colo.--(BUSINESS WIRE)--Ingenovis Health (Ingenovis), a leading healthcare talent provider, continues to climb the ladder of the industry's top providers, tripling in size in two years

Backed by private investment firms Cornell Capital and Trilantic North America, Ingenovis' second anniversary comes during rapid acceleration across its family of brands as it solidifies its position as a significant player in the contingent healthcare talent solutions space.

"Since its inception, Ingenovis has experienced extraordinary growth, largely due to an excellent customer service model, an industry-leading clinician-focused approach, and a combination of organic and inorganic growth," said Ingenovis Board Member and Partner at Cornell Capital, Stephen Trevor.

Industry-leading achievements:

- Achieved more than \$2 billion in annual revenue.
- Executed an acquisition strategy to extend capabilities and service lines, with three acquisitions in twelve months and plans for additional acquisitions in 2023.
- Placed more than 10,000 clinicians on assignments last year, including thousands responding to COVID patient spikes.
- Grew cardiology client contracts by nearly half and cardiology clinician assignments by 84% since 2021.
- Supported multiple labor disruption events with approximately 6,000 healthcare providers onsite in 2022.
- Launched the one-of-a-kind ACT (Advocacy. Career. Tools.) program to support the well-being and career advancement of clinicians.

"In a market of more than 800 competitors, Ingenovis is continually rising to the top and emerging as an industry leader, and we recognize that our responsibility extends beyond our bottom line," said Chief Executive Officer Bart Valdez. "Our organization operates with a clinician-first philosophy and strives to become an employer of choice for providers throughout their careers. Our purpose sets us apart from the crowd – and we are committed to being part of the solution amid the healthcare provider shortage."

Formed in 2021 by the mergers of Fastaff Travel Nursing, U.S. Nursing, Trustaff Travel Nurses and CardioSolution, Ingenovis has since acquired HealthCare Support, VISTA Staffing Solutions and, most recently, Springboard Healthcare. Each brand serves a distinct vertical and is aligned with the common purpose of building a home for healthcare talent to stem the tide of provider attrition.

Ingenovis continues to expand its service line offerings and build its clinician database to offer uninterrupted quality patient care to clients and communities nationwide.
